

Script: Far Sighted Client - Accident Response

Occasionally, an incident at work is so severe that it requires more than just an effective medical rehabilitation service to support the injured – it requires a specialist Serious Accident Response service as well to minimise the impact on the business.

Accel Elite provides such a service to help clients liaise with police, local authorities, and the HSE as well as providing the necessary support to help the business keep the confidence of customers and investors.

We can be on site anywhere in the UK at short notice after a serious accident to set up an incident co-ordinating centre and to provide the technical and organisational expertise to help the client provide the best possible response to the authorities – including managing post-incident procedures, like isolation and reporting protocols.

We'll also arrange a thorough investigation of liabilities, so even in a worst-case scenario, clients are as well prepared as they can be for any lawsuits.
