Increase your clients' chances of
HITTING THE CAP
with 50/30/20 hindsight from an
AG Global IndexSM Annuity

Here's how:

- Three leading indices are used to reduce the risk of relying on just one index to drive your clients' savings growth.*
- No need to guess which index will perform best. Rate calculation gives the greatest emphasis to that year's best performers.

Interest calculation weights
50% for top performing index
30% for 2nd best performer
20% for lowest performer

Three Indices represent U.S., Europe, and Japan
