Our History

AIG traces its roots to 1919, when American Cornelius Vander Starr established a general insurance agency, American Asiatic Underwriters, in Shanghai, China. Since then, an enterprising spirit, ingenuity, and tenacity have built the company into one of the world's leading insurers.

Today, AIG is focused on what it has been known for since the beginning: the willingness and ability to provide insurance coverage to meet the diverse needs of its clients.

Bring on Tomorrow

We're the new AIG. And we can't wait for tomorrow.

Because we know that tomorrow brings opportunities and opens doors that will redefine what's possible. Tomorrow is a place where our spirit of inventiveness and adaptability will lead the way, helping our customers across the globe build a better future.

We were born from a hunger to take on any challenge. A passion to do what no other insurance organization can. We believe that the best way to predict the future is to create it for yourself. And we know that together with the right people, the right values, and a lot of hard work, we can help turn even the toughest todays into the brightest tomorrows.

So bring on the building people said can't be rebuilt
